

## Discharge of Liquid Trade Waste Approval Process

To the Manager/Business Owner

Please find attached application forms for the discharge of Liquid Trade Waste to Council's Sewerage System.

Liquid Trade Waste is liquid waste produced by a business, commercial or industrial activity. It excludes domestic waste from a hand wash basin, shower, bath or toilet.

It is a legal requirement for any business that discharges liquid trade waste to the sewer to have an approval to do so. Even if your business already has some form of pre-treatment device (e.g. grease arrestor or oil separator), it does not mean an approval has been issued.

Council is in the process of inviting all businesses to lodge an application for approval. Please fill in the attached forms as best as possible and submit them to Council.

There is a fee involved with this application, currently \$103.00 for new applications, \$51.00 for renewal applications. **(As per Revenue Policy 2023/2024)**

If you need any help to fill in the form or if you have any questions, please call Council's Infrastructure & Operations Department on (02) 6340 2070.

### Forms attached

- 1. Application for Discharge of Liquid Trade Waste Approval**  
Part C, Section 68 of Local Government Act 1993
- 2. Application for Discharge of Liquid Trade Waste Approval – Form A**

**Please fill out and return both these forms**

## Application for Discharge of Liquid Trade Waste Approval – Form A

This application form is for businesses that intend to discharge certain low risk ('Concurrence Classification A') liquid trade wastes to the sewerage system. Please include all details as requested. When finished, return this form to Council, including attachments.

### 7. Business activity

Please indicate the nature of your business. Please refer to the accompanying list 'Liquid Trade Waste – business activity classifications. Include more than one activity if appropriate.

#	Activity	No. of seats/beds (if applicable)

### 8. Fixtures/Appliances in the kitchen (Hot Food Venues)

Fixture/appliance	Number	Manufacturers Flow rate L/h or Capacity
Bain Marie		Capacity of the apparatus
Bratt pan		
Cleaners sink		N/A
Combi-oven/barbeque		
Commercial dishwasher (door or hood)		
Commercial dishwasher (conveyor)		
Floor waste outlets		N/A
Glass washer (if connected to a grease arrestor)		
Hand basin		N/A
Hot plate/charcoal barbeque		
Pasta cooker		N/A
Potato peeler (if connected to a grease arrestor)		
Pot sink		N/A
Sink – single		N/A

Sink – double		N/A
Steam cooker		N/A
Wok – traditional wok		N/A
Wok – waterless wok		N/A
Under bench dishwasher		
Other fixtures that generate liquid trade waste <i>Please specify and include the expected hourly flow rate</i>		

## 9. Normal hours of business

Day	Start	Finish
Monday to Friday		
Saturday		
Sunday		

## 10. Description of flow

Maximum rate of discharge to sewer	kL/h or L/s
Maximum daily discharge to sewer	kL

## Water supply meter

Is the supply of water to this business metered? Yes  No

If yes, what is the meter number? \_\_\_\_\_

## 11. Existing/proposed pre-treatment equipment

Type	Tick	Size	Flow rate
1. Grease arrestor			
2. Dry basket arrestor with fixed screens			
3. Sink screen/strainer			
4. Fixed or removable mesh screen			
5. Coalescing plate interceptor or separator			
6. Vertical gravity separator			
7. Hydrocyclone separation system			
8. Cooling pit			
9. Balancing, averaging, neutralising pit/tank			
10. General purpose pit			
11. Solids settlement pit / silt arrestor			
12. Baffled settlement pit			
13. Lint screen			
14. Plaster arrestor			

**12. Proposed cleaning schedule (if applicable)**

---

---

---

**13. Names of cleaning contractors (if applicable)**

---

---

---

**14. Location of sampling point (if applicable, provide a site plan)**

---
