 Entrepreneurs' Programme

Entrepreneurs' Programme  
 Rebuild your business after the floods  
 Strengthening Business

Is your business in a location impacted by the 2022 New South Wales floods?

The Strengthening Business program is a free service under the AusIndustry Entrepreneurs' Programme that connects flood affected businesses with experts to help you recover, make your business stronger, more resilient and better prepared for the future.

**What do you get?** You'll be paired with an independent facilitator. Your facilitator will recommend ways to strengthen your business systems, operations and strategies. They'll identify opportunities to improve your business, with a plan to get you back on track.

**Who is this for?** Small businesses located in Queensland, New South Wales, Victoria and South Australia impacted by the 2022 floods.

**How we will help you.** Strengthening Business will connect you to a dedicated facilitator who:

- is an independent expert, with private sector expertise
- has extensive networks across national, state and local government
- understands your region
- will advise on what it takes to run a successful business in your industry and help you assess the gaps in your business knowledge.

**Who is eligible.** You can apply for if you have a current ABN and are in one of the locations impacted by the 2022 floods.

**Register now.** Simply scan the QR code and register your details to book an appointment with a Facilitator.
